

# UPDATING YOUR WEBSITE

Don't know HTML? Leave it to Riera Design to keep your site updated!

\* \* \* \* \*

You can purchase single or multiple updates. The more you purchase, the more you save.

**1 update:** = \$5  
**10 updates** = \$40 (*save \$10!*)  
**20 updates** = \$70 (*save \$30!*)  
**50 updates** = \$150 (*save \$100!*)

Updates may take up to 3 business days to complete, so plan accordingly!

**Add-a-Page = \$35**

## UNDERSTANDING UPDATES

### **Q. What is included in an update?**

A. One web site update includes going into an existing page and adding, deleting, and editing text, or adding or deleting photos. If you need changes made to more than one existing page, updates used will equal the number of existing pages being modified.

### **Q. Can I add a new page to my site?**

A. Yes, but it doesn't count as an update. New pages must be purchased separately and will be billed at \$35 per page.

### **Q. How do I decide how many updates to purchase?**

A. That depends on how you will be using your site. If you don't plan to modify the site unless something comes up that warrants it (such as a change of address), you should probably purchase single updates on an as-needed basis. However, if your page will need consistent changes, you will save money by purchasing a larger amount of updates at a time.
